CONFERENCE INFORMATION

The **National Health Care for the Homeless Conference & Policy Symposium** is the preeminent gathering of health care and housing industry professionals dedicated to vulnerable populations. Our sessions address critical research interests, provide cutting-edge clinical training, present bold policy analysis and advocacy opportunities, and train leaders in health care administration, all informed by the unique perspectives of the people we serve.

This annual conference attracts more participants each year, with over **900 attendees** in 2015. The Portland, Oregon, gathering is expected to be another record-breaker in light of the attractive host city and the deepening need for our resources. Please join us on the west coast this June as we improve and perpetuate patient-centered care.
