HRSA Clinical Priorities

Health Center Workforce

Care Integration

Substance Use Disorder and the Opioid Crisis

Diabetes Prevention and Control

Ending the HIV Epidemic

Telehealth

VIOLENCE Intimate Partner Violence and Human Trafficking

Value-Based Care

Enhancing Communication: Primary Health Care Digest

Primary Health Care Digest

October 17, 2017

A Message from Jim Macrae, BPHC Associate Administrator

At its core, the Health Center Program is about community. We are a vast yet close community of health centers, and so when one health center is affected by a natural disaster, we come together to offer our thoughts of support. From the health centers along the Gulf Coast and in the U.S. Virgin Islands and Puerto Rico affected by the hurricanes to those in Las Vegas affected by the shooting to our health center colleagues in the west and California affected by wildfires, we support you, and support your efforts to provide services for your community.

Uniform Data System (UDS) Performance Data Collection Environment (PDCE) Now Open

As part of <u>efforts to modernize UDS</u>, HRSA is pleased to announce the availability of new functionality in its Electronic Handbooks (EHB) that allows health centers to access the UDS reporting environment earlier. The aim is to reduce reporting burden, improve data quality and usage, and better reflect the impact of the Health Center Program.

The PDCE allows health centers to enter and validate any available/partial

Futures Without Violence Virtual Toolkit

https://ipvhealthpartners.org/

- Build partnerships between health centers and local domestics violence (DV)/sexual assault (SA) programs.
- Prepare your practice
 by implementing a new or updated DV/SA policy to identify and respond to survivors in partnership or community-based DV/SA programs, and promote prevention.
- Adopt the evidence-based intervention to educate all patients about the connection between IPV and their health and engage them in strategies to promote wellness and safety.
- Train providers and all staff on the impact of DV/SA on health outcomes, and how to assess and respond in collaboration with community-based DV/SA programs.
- Evaluate and sustain your progress as part of continuous quality improvement.

Moving to Value Based Care: HRSA Approach

Components

- Comprehensive, integrated, patientcentered care
- Quality improvement; learning health system
- Operational excellence
- Health IT, population health management
- Addressing social risk factors
- Value based payments

Activities

- Quality Measurement/QI Awards
- Diabetes Quality Improvement Initiative
- **Primary Care Associations**
- Health Center Controlled Networks
- TA and Training National Cooperative Agreements – Health IT, workforce, special populations, payment reform, social risk factors
- Federal Partners CMS, CMMI
